

# Tree of Life Eila Art, Naggar

'Eila' is of Sanskrit origin, meaning Earth. And true to its name, the Tree of Life Eila Art Hotel, set amongst the Deodhar forests; with the meandering Beas River in the valley below; the imposing Dhauladhar range across; artistic touches which permeate every corner of Eila - is a combination which is bound to take your breathe away! And your journey to this world begins as you enter through the Gate of Confluence, inspired from the great inscriptions of Mauryan period with Gold foils and a palette of bright colours inspired from Buddhist monasteries located in different areas of Himachal Pradesh. And this is only just the beginning of your boutique experience with art, literature, cuisine and wellness.

Beauty flows through The Tree of Life Eila Art Hotel as naturally as the Beas through the hills surrounding it. Instead of lying in wait for inspiration to come, perhaps you should consider coming to it. We are conveniently located between Kullu and Manali, with Bhuntar Airport a scenic 19 km away.

## Dining:

- **RAS TURANT (Restaurant):** Inspired by the feasts of Himachal Pradesh, we have created that joyful celebration every day at our uniquely designed all day dining restaurant. While you immerse your senses in an array of traditional cuisines where most ingredients are locally sourced, do admire the art work and installations around you. The 80 feet wall represents the everyday life of Kullu- it's flora-fauna, music-dance, fairs-festivals, food-farming, health-handicrafts, dressing-weaving, arts-architecture. The other installation - Ek Pao Zameen - is a collection of soils from various sites of enlightened importance, to remind us that without soil there is no culture. The trees which grew inside have been colourfully covered to preserve them.
- **Chajja (Open air dining):** For those who prefer to dine in fresh air, this is an open sit-out adjoining the Restaurant. It offers counter-seating, with the most amazing view of the mountains in front.
